Right to Work: UK Graduate Route Visa valid until **March 2028** (no sponsorship required). Relocation/Hybrid/Remote roles.

Professional Summary

Cloud and DevOps Engineer with **4+ years** of experience delivering enterprise-scale infrastructure across **AWS, Azure, and IBM Cloud**. Proven delivery of Kubernetes platforms (EKS, AKS, IKS), IaC automation (Terraform, Helm, Ansible), and CI/CD pipelines that compressed release cycles from two weeks to three days. Led and mentored teams of 10–12 junior engineers; experienced in Agile delivery and compliance (SOC 2, GDPR).

Core Skills

Cloud Tech	AWS (EKS, MSK, EC2, S3, RDS, IAM, CloudFormation), Azure (AKS, Functions, App Services, Monitor), IBM Cloud (IKS, Compute, Networking, Observability)
Containers/IaC	Kubernetes, Helm, Terraform, Ansible, Docker, GitOps
CI/CD	Jenkins, GitHub Actions, CI/CD Pipelines, Agile/Scrum
Observability	Prometheus, Grafana, ELK Stack (Elasticsearch, Logstash, Kibana), CloudWatch, Azure Monitor
Security/Net	IAM, WAF, VPC/VNET, NACLs / Security Groups, SSL/TLS, GDPR / SOC 2 / ISO 27001
Databases	MongoDB (HA, backup/restore, tuning), PostgreSQL, MySQL, AWS MSK (Kafka)
Scripting/Dev	Python, Bash/Shell, YAML, Node.js, React, Git

Experience

Senior Cloud Engineer

May 2023 – Aug 2024

Conga (Apttus Corporation) via Aress Software & Education Technologies, Nashik, India

- Architected and operated **Kubernetes platforms (AKS, EKS, IKS)** for production multi-tenant SaaS workloads; deployed microservices via **Helm**, implemented HPA and self-healing, delivering measurable improvements in reliability, scalability, and observability.
- Automated infrastructure provisioning with **Terraform and Ansible**, eliminating **60%** of manual effort and enforcing dev/staging/prod parity.
- Built multi-branch **Jenkins CI/CD pipelines** (blue/green), compressing release cycles from **2 weeks to 3 days**.
- Managed **AWS MSK (Kafka), Elasticsearch, and MongoDB** clusters — tuning, index optimisation, and HA backup/restore.
- Hardened security posture with **IAM, WAF, NACLs, and Security Groups** aligned to SOC 2 / ISO compliance.
- Led and mentored teams of 10–12 junior engineers** on Kubernetes, Helm, MSK, and DevOps best practices.

Cloud Operations Engineer

Sept 2020 – May 2023

Aress Software & Education Technologies, Nashik, India

- Deployed and operated fault-tolerant infrastructure (EC2, VPC, S3, RDS, IAM, Azure VMs) across multiple production environments.
- Configured **CloudWatch alarms and dashboards** for CPU, memory, and disk health, cutting mean incident detection time by **35%**.
- Built **Python and Bash automation scripts** for provisioning, patching, and scheduled operations, reducing manual workload by **70%**.
- Conducted disaster recovery drills, system audits, and authored runbooks to maintain SLA compliance and reduce MTTR.

Education

MSc Cloud Computing (Full-Time) — University of Leicester, UK

Sep 2024 – Jan 2026

Modules: Agile Cloud Automation, Internet & Cloud Computing, SOA, Big Data, Cyber Security, Algorithms

Capstone: Full-stack debate platform (MERN + Socket.IO) with JWT RBAC, gamification, and real-time AI analytics.

BBA Computer Applications (Part-Time) — KVN Naik College, Nashik

Jul 2021 – Jul 2024

BE Computer Engineering (Full-Time) — KK Wagh Institute of Engineering

Aug 2016 – Dec 2020

Awards & Recognition

- Awarded **"Performer of the Month"** multiple times at Aress Software & Education Technologies for outstanding delivery and technical leadership.
